About BitePRO® Bite Resistant Clothing

BitePRO® Bite Resistant Clothing is a highly acclaimed brand of scratch, pinch, and bite resistant clothing. Our garments have been specifically designed to reduce the risk of injury as a direct result of dealing with challenging behaviour.

Challenging behaviour, also known as behaviours which challenge, is often seen in people with health problems that affect communication and the brain, such as learning disabilities, autism, or dementia. Such behaviour can include:

- Verbal aggression
- Physical aggression
- Self-harm
- Destructiveness
- Disruptiveness

It is important to differentiate between self-injurious behaviour and behaviour that injures other people. There appears to be a lot of research and literature about self-injury in association with challenging behaviour.

However, there is very little discussion when people with challenging behaviour injure other people i.e. healthcare or educational professionals, carers or psychiatric social workers.

We understand most individuals that cause such injuries to others through challenging behaviour, are not doing it intentionally. This is not a conscious, pre-meditated act of violence. Instead, it is invariably a form of communication. It is a way for a certain individual to control their environment when they are otherwise unable to easily communicate.

In the context of challenging behaviour there are specific behaviours that are likely to cause injury to others or oneself, the most common being:

- Biting
- Scratching
- Kicking
- Punching
- Grabbing
- Hair pulling
- Squeezing
- Pinching
- Head banging

Specially designed BitePRO® Bite Resistant Clothing & Arm Guards are being effectively utilised by those who support, care for, and educate individuals with challenging behaviour. BitePRO® supply professionals in the medical, care and special education sector worldwide. However, we also have a growing number of private individuals who wish to protect themselves from others i.e. family members or loved ones displaying challenging behaviour.

Please note, our products are all Machine washable, comfortable to wear for long periods of time, and they are latex free. The quality and value of our products is unparalleled with garments lasting for several years with the correct care and maintenance.

What are the benefits of adopting BitePRO® protective clothing?

- **Prioritise Well-being:** BitePRO® clothing offers unparalleled protection, allowing workers to focus on their primary goal: care. With the assurance of safety, they can perform their duties with confidence.
- **Reduced Injuries, Increased Presence:** With fewer injuries, there's a decrease in time taken off by staff. This means more consistent care and a more robust team presence.
- **Economic Benefits:** Fewer incidents lead to decreased liability and a reduction in economic strain from productivity loss post-violence. An investment in BitePRO® is an investment in a more efficient, effective workplace.
- **Boosted Morale:** When staff feel protected and cared for, morale soars. Higher morale leads to improved teamwork, reduced staff turnover, and an overall healthier work environment.

BitePRO® Clothing

Frequently Asked Questions (FAQs)

What are the delivery times?
We aim to hold stock of all items and dispatch from our UK office within 4 working days of receiving your order. UK Mainland orders are shipped via a tracked next day service. International deliveries typically arrive within 4–10 days via express courier. Tracking details are provided for all orders upon dispatch. For large orders (50+ items) or products temporarily out of stock, delivery times may vary - our team will contact you with details.

Are the arm guards sold in pairs?
Yes, all BitePRO® Arm Guards are sold in pairs.

What are your most popular products?
Our Version 3 Arm Guards and Turtleneck Jackets are our most popular products.

Do BitePRO® Arm Guards extend to the shoulder?
Only our 'Full Arm' Arm Guards provide bite protection extending to the shoulder area.

Do BitePRO® Arm Guards protect against bruising?
Yes, our added protection models are specifically designed for this purpose. The 'Version 4' Arm Guards with added protection and 'Version 1' Arm Guards with additional protection reduce pain, bruising, and blunt force trauma linked to challenging behaviour injuries.

Do BitePRO® Bite Resistant Arm Guards contain Latex?
No, all our garments are 100% latex free.

What is your returns policy?
Please refer to our full terms and conditions for details.

How can I ensure the correct fit?
All specification sheets include clear sizing guidance to help you choose the correct fit.

Are the garments comfortable to wear?
Yes, all BitePRO® garments are designed for comfort, even during extended wear.

Do they protect the hand as well?
Our BitePRO® fabric-lined gloves offer bite protection for the hand. Several products also feature thumbholes for additional upper hand coverage. Please contact our team for further details.

Why are the products more expensive than regular clothing?
Our garments are made using BitePRO® fabric, one of the world's strongest cut, tear, abrasion, and bite resistant materials. This high-performance technology ensures the highest level of protection for staff.

Can we request a free sample?
We do not offer free samples. However, we are confident in the quality and effectiveness of our products. Should you be unsatisfied, simply return the product within 14 days for a full refund.

Do your products protect against animal bites?
BitePRO® products are designed specifically to protect against human bites, scratches, and pinching. They are not suitable for use with animals.

Arm Protection

Comfort, Without Compromise.

Facing daily challenges in caregiving and educational settings, professionals often find their arms vulnerable during close-contact tasks. BitePRO® Arm Guards offer a protective shield in these moments.

BitePRO® Arm Guards design balance robust safety with comfort, ensuring they can be worn continuously, facilitating care and support without restricting movement or causing discomfort.

BitePRO® Clothing

BitePRO® Bite Resistant Arm Guards V3

Model #: 100504

BitePRO® Arm Guards Version 3, a top choice among our range, provide extensive protection from just below the elbow to the base of the fingers. Designed with arm to inner palm and back of hand coverage, they safeguard the vulnerable joints and tendons in the hand, wrist and arm effectively. Their low profile and close-to-skin fit make them easily layerable with personal clothing, offering discreet yet comprehensive safety.

Upper Body Protection

Vital Protection

BitePRO® Upper Body Protection is meticulously designed to offer comprehensive coverage, safeguarding critical and sensitive areas with the utmost care. Our range, featuring robust jackets, jumpers, and chest protectors, ensures extensive protection where it's most needed – from the torso to sensitive regions, including the chest.

Each piece is engineered for rapid and easy wear, allowing staff in demanding environments to equip themselves swiftly and efficiently.

BitePRO® Bite Resistant Turtleneck Jacket

Model #: 800001

The BitePRO® Turtleneck Jacket offers extensive upper body protection with a focus on comfort, functionality and safety. The jacket is made entirely of our BitePRO® Fabric and is designed to cover the entire upper body, including the inner and back of the hands. The full-length zip extends up to a protective turtleneck, safeguarding the neck and vulnerable arteries when fully zipped.

Hand Protection

In Safe Hands.

The hands, constantly in action and often in harm's way, require meticulous protection in close-contact environments where bites are a risk. BitePRO® Gloves are expertly designed to guard against such injuries, ensuring each touch, is safe and secure.

Recognizing that hands are not only at high risk of infection due to their intricate joints and tendons but are also indispensable for daily tasks, BitePRO® gloves provide a shield without compromising functionality.

BitePRO® Clothing

BitePRO® Bite Resistant Gloves (Short)

Model #: 300161

£80.99 Request a quote Buy now

The BitePRO® Bite Resistant Gloves (Short) are specifically designed to shield the entire hands and wrists, crucial areas that are frequently at risk in professional settings. Made from our durable BitePRO® Fabric, these gloves are essential for tasks that require close proximity to the mouth, such as feeding, where the risk of bites is significantly higher. Designed with functionality in mind, the BitePRO® Bite Resistant Gloves (Short) maintain finger dexterity, enabling caregivers to perform intricate tasks effectively while being protected.

Features & Benefits

- ✓ BitePRO® Fabric used on the entire garment, providing excellent bite resistance from the wrist to the finger tip
- ✓ Brushed polyester palm
- ✓ Can be layered with arm guards or upper body protection
- ✓ Excellent bite resistance
- ✓ Soft durable polyester outer
- ✓ Elasticated wrist to create a snug fit
- ✓ 100% Latex free

BitePRO® Bite Resistant Leg Guards

Model #: 200200

£99.99 Request a quote Buy now

BitePRO® Bite Resistant Leg Guards provide protection from the top of the foot to just below the knee. Made with our specialized bite-resistant fabric, they effectively reduce the risk of skin penetration from human teeth.

These guards also feature impact-absorbing foam, which lessens the severity of pain, bruising, and blunt force trauma from challenging behaviour related injuries. Equipped with a full-length zip and adjustable cords at both the top and bottom, they ensure a secure and comfortable fit

Features & Benefits

- ✓ Excellent bite protection for the lower part of the body
- ✓ Sold in pairs
- ✓ Overtly worn
- ✓ Impact absorbing foam to lower leg area
- ✓ Adjustable cord and elastic fastening to top
- ✓ 100% Latex free
- ✓ Zip fastening for quick application and removal
- ✓ Can be layered with BitePRO® Long Johns

Grab Bags

Ready for Every Scenario.

In environments where rapid response and adaptability are crucial, BitePRO® Grab Bags emerge as the epitome of quick-access protection.

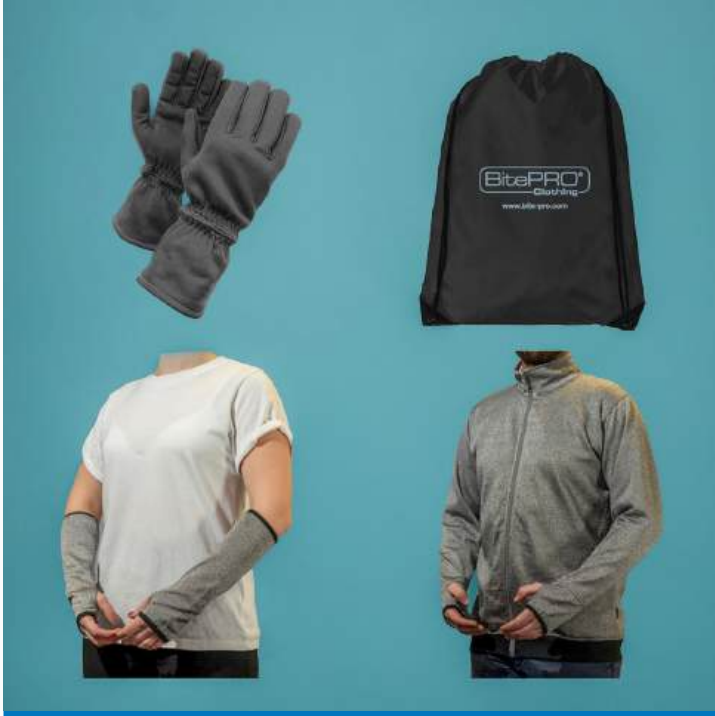
BitePRO® Grab Bags come in two types: the Essentials Grab Bag, offering a comprehensive set of individual protective wear ideal for everyday use, and the BitePRO® Grab Bag, a versatile selection for multiple wearers, catering to diverse and immediate safety needs.

Each bag is thoughtfully compiled to ensure staff have quick access to a range of bite resistant garments, suitable for various scenarios — from routine tasks to critical interventions. Both Grab Bags offer a 10% discount compared to purchasing the items separately.

BitePRO® Grab Bag

BitePRO® Bite Resistant Essential Grab Bag

Model #: 700209



£306.87 Request a quote Buy now

The BitePRO® Essentials Grab Bag is an expertly curated collection of our most popular products, designed for quick access and comprehensive safety, all in a handy and portable drawstring bag.

These items can be used individually to suit different scenarios or layered together for enhanced protection. The Essentials Grab Bag is ideal for professionals in high-risk environments who need immediate access to reliable protection across a range of situations.

✓ Purchasing the Essentials Grab Bag saves you 10% on purchasing the products individually, and you receive the drawstring BitePRO® bag for free.

Features & Benefits

- ✓ Users can quickly choose an appropriate garment to deal with a particular incident or patient
- ✓ Wide range of garment sizes available
- ✓ Cost-effective for health care facilities with a frequent turnaround of operational staff
- ✓ Bag contains the same size of each product
- ✓ All three garments can be layered and worn together for additional protection
- ✓ Includes our most popular products

What's Included

- ✓ 1 x Version 3 Arm Guards (S-XL)
- ✓ 1 x Bite Resistant Gloves - Short (S-2XL)
- ✓ 1 x Turtleneck Jacket (S-2XL)

Anti-Ligature Clothing

STRONGTEX

Anti-ligature Clothing Designed to Promote Safety, Comfort and Recovery

STRONGTEX anti-ligature clothing integrates exceptionally strong fabric with a strategic design to mitigate risks associated with self-harm by helping prevent the formation of ligatures using the clothing. This precaution underscores our commitment to safety, aiming to protect high-risk individuals from potential harm.

Beyond safety, STRONGTEX garments are designed with serious consideration for the wearer's comfort as we understand the vital role comfort plays in maintaining personal dignity and supporting recovery, especially in distressing circumstances and environments.

STRONGTEX Fabric

Advanced Safety Through Technical Precision

The foundation of STRONGTEX Clothing's durability and safety is in the fabric's structural strength. Developed through technical innovation, the fabric is engineered to resist tearing and unraveling, which helps prevent the garments from both being torn and picked apart.

This structural strength is not just a product of the material itself but of the complex way in which the fabric is knitted, creating a garment that is extremely durable yet comfortable against the skin.

STRONGTEX Made by BitePRO Clothing

Safety

- ✓ Complex and technical fabric for high structural strength.
- ✓ Reinforced safety stitched seams.
- ✓ Free from strings, elastic and ties.
- ✓ Garments are white for increased visibility and detection of bodily fluids.

Comfort

- ✓ Smooth finish interior for softness against the skin.
- ✓ Various sizes for a comfortable fit.
- ✓ Lower Body garments have hook and loop straps for easy size adjustments.
- ✓ The non-rigid design supports ease of movement.

BitePRO® Care & Maintenance

Caring for Your BitePRO® Clothing*

- This product is designed to minimise the risk of injury from challenging behaviours such as biting, pinching, slash injuries, and scratching.
- Added protection garments not only reduce the risk of a bite breaking the skin but also reduce the associated pain, bruising and blunt force trauma.
- This product does not protect from hypodermic needles or similar sharp pointed objects
- BitePRO® Fabric is an ultra-high performance cut resistant fabric. However, it is not completely cut proof.
- BitePRO® garments should be stored in a temperate dry environment.
- Do not attempt to repair BitePRO® Clothing garments yourself as we use specialist threads to stitch and sew garments.

Maintenance*

- Do not wear this product if damaged, always inspect prior to use
- Please refer to the washing instructions provided on each product page.
- Do not leave in a contaminated condition, launder immediately
- When not worn, store this product in cool dry conditions away from direct sunlight
- Wash dark Colours separately
- Do not wash with fabric conditioner or bleach
- Reshape whilst damp
- Do not tumble dry

*Does Not Apply to STRONGTEX garments

Caring for Your STRONGTEX Clothing*

- STRONGTEX clothing is designed for durability but is not indestructible. It complements, not replaces, the need for supervision and care.
- Do not provide STRONGTEX garments to individuals under care if the clothing is damaged, torn, or compromised in any way. Always inspect garments before each provision and replace garments if they do not meet these standards to ensure effectiveness.
- The expected lifespan of STRONGTEX garments varies based on care and usage. Inspections before use will help ensure garments are maintained properly and replaced.
- Do not attempt to repair STRONGTEX garments yourself.
- STRONGTEX clothing is machine washable at thermal disinfection temperatures: at 71° Celsius. STRONGTEX has been tested at 71°C (165°F) over 50 cycles, with less than 4% shrinkage observed.
- STRONGTEX clothing can be tumble dried on medium heat.
- Do not bleach, iron or dry clean STRONGTEX clothing.

*Does Not Apply to BitePRO® garments

We're here to help.

At BitePRO®, we understand the importance of finding the right protective gear for your team's specific needs. To assist you in making the best choice, we offer personalised online video call demonstrations of our products.

How to Request a Demo:

1. Email Us: Reach out to us at **info@bite-pro.com** with some basic information about your organisation.

2. Specify Your Interest: Let us know which products you're particularly interested in. Whether it's arm guards, jackets, or our gloves, we're ready to showcase what you need.

3. We'll Get in Touch: One of our dedicated team members will respond to your request promptly. We'll arrange a convenient time for your online demo.

During the video call, you'll get a close look at our products, understand their features, and see how they can be best utilised in your environment. We'll also be ready to answer any questions and provide recommendations based on your specific needs.
